Sundernagar, Himachal Pradesh 175018

Extra Curricular Activities

The need for reformation of the engineering curriculum taught in most Indian colleges has been a big topic of discussion, as is evident by the number of journal articles and conferences dedicated to the topic. This awareness has led to the re-examination of the roles of engineers in the society. Emerging from this reexamination is a growing need for renaissance engineers and renaissance engineering education, which is not being satisfied by the current undergraduate engineering curriculum. The reform initiatives currently underway, such as the introduction of an Engineering Education discipline, are ongoing processes, with visible long term impact. However, to bring about more immediate results, alternative complementing ideas can be considered. One such complementing alternative involves the use of extracurricular activities to fill the current gaps in the undergraduate engineering curriculum. Before this alternative can be considered viable, we must explore the role of extracurricular activities in the professional preparation of engineering students.

Major Extra Curricular Activities being organized in JNGEC are:

Techno-Cultural Festival TWASK:

Twask is the annual technical cum cultural fest of JNGEC Sundernagar. It is a three-day long event held towards the start of May. Started in 2012 by bunch of enthusiast JNGECians. It is the most anticipated event of the college, organized at the state level. The festival is a forum for young minds to interact, share and discuss the latest developments in the field of Technology and showcase their new innovative ideas.

Sports Meet: organised every year in college premises to inculcate competition in students.

Decibel: is a technical Fest being organised in every second half of the year for the students in which the Debate, Quizzes and Extempore are being conducted at the Department Level.

Clubs and Committees

The college has following Clubs and Committees

- Cultural Committee
- Sports Committee
- Photography Committee
- Eco Club
- NSS Club
- Technical Clubs
